EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Domonic M. Kotab on 1/2/2007.

In the claims:

Claims 16-20 and 33-38 have been cancelled.

Reasons for Allowance:

The following is an examiner's statement of reasons for allowance: the prior art does not teach all of the limitations of the claimed invention including:

- In claim 1: - protective layer also covering facing ends of the leads; removing material from at least one side area of the wafer stack using the protective layer as a mask; removing the protective layer; and
- processing a portion of the bias layer below the gap for reducing a magnetic moment of the bias layer in the portion of the bias layer below the gap for forming a sensor in which magnetic moments of end portions of the free layer are

pimped by magnetic moments of end portions
of the bias layer.

In claim 21: - applying a developer to the resist
undercoat for removing a portion of the resist
undercoat such that opposite ends of the resist
undercoat along a plane parallel to an upper surface
of the wafer stack are closer together than opposite
ends of the second layer of resist; removing the
protective layer.

Accordingly, claims 1-15 and 21-32 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
